

BRITISH HOLD TO NEW LINES SECURED IN FLANDERS DRIVE

MENACE OF STRIKE GROWING

Both Operators and Miners Agree That the Government Price Must be Raised.

Unrest Among Miners.

By Associated Press Dispatch.

Washington, September 27. — Discussion of the 25 per cent wage increase demanded by coal miners in the central competitive field without approaching a settlement today, developed into agitation for stimulation of production through more continuous work by miners and priority shipment of coal.

Operators told the miners that regardless of wage increase it was imperative that the miners' practice of quitting work one or two days a week be discontinued during the war. The miners replied that unless higher wages were granted unrest among miners would prevent the maintenance of good discipline and promote the drift of workmen to other work.

Both agreed that the wage question is entirely dependent on whether the government raises the present price at the mines and some intimation of the government's intention in this respect was expected soon from H. A. Garfield, the fuel administrator.

The operators refused to consider a proposal of the miners that both sides take their disputes to the fuel administrator for settlement on the ground that this would be an open bid for higher government prices and would resemble conspiracy.

A BREAD SURVEY ON

By Associated Press Dispatch.

Columbus, O., September 27. — In line with his recently announced intention of co-operating fully with the national food administration, Fred C. Croton today began a bread survey of the state.

Letters asking questions touching on the situation were sent to manufacturing wholesale bakers, to department stores and to manufacturing retail dealers in three types of cities: First, cities of 100,000 population or over; second, of 25,000 to 100,000 population and third to cities under 25,000 population.

The following questions were asked: What are prevailing loaf sizes by weight; at what prices are the several sizes sold by the retailer; at what prices are they sold by the wholesaler to the retailer; at what prices for the various sizes do the stores sell to the public; at what prices do manufacturing retailers sell to the public?

Remarkable Photograph of the Flight Of Russian Soldiers Before the Germans

This extraordinary photograph just made flight of Russian troops at one cry was raised "The German cavalry received from Europe shows the first point in the Eastern line, when the have broken through."

COMMITTEE OF FIVE SUMMON KERENSKY

Premier Must Appear Before Russian Congress Which Convenes Tomorrow.

Main Work to Begin on Saturday.

Will Take Up Korniloff Case.

(Associated Press Cable)

Petrograd, (Delayed)—The committee of five in temporary control of the government at its first meeting since the return of Premier Kerensky from the front determined today that the Premier shall appear before the Democratic congress which convenes tomorrow.

The action followed a four hour session of the committee at which the attitude of the Premier was said to have been substantially this: "While the government is not bound to recognize the Democratic Congress it is not conceding that it represents the greatest part of Russia. It is admitted that the Congress represents a large percentage of the people through elements which must be taken into consideration.

In government circles it is understood that the Congress will convene for a short time and then adjourn over one day to begin work Saturday.

In the Petrograd council of Workmen's and Soldiers' delegates the Bolshevik faction has forced through a list of extremist orders to the Congress.

They propose to place the following task on the cabinet:

Settle the Korniloff affair; reabolish capital punishment; strain efforts to attain peace; to summon as soon as possible the constitutional assembly; to dissolve the Duma and Council of the Empire; to transfer the land to the peasants immediately; to pass an 8-hour labor law and to change radically the command of the army.

ADJUSTMENT BOARD WILL INVESTIGATE

Shipbuilding Board Will Visit Seattle to Make First-hand Inquiry.

(By Associated Press Cable)

Washington, September 27.—The government ship building labor adjustment board will leave next Wednesday for Seattle to take up at first hand the Pacific coast strike.

The Board will visit Portland and San Francisco.

BRITISH SHIP IS SENT DOWN

By Associated Press Dispatch.

An Atlantic Port, September 27.—A report that all persons aboard the British steamship Wetworth were lost when the boat was sunk by a German submarine on September 8, presumably off the French coast, was brought here today by passengers on a British steamship.

There were about 50 men in the crew, according to officials here, of the French line which had the vessel under charter. No Americans were aboard.

J. FRANKLIN FORT IS AGAIN CHOSEN COMMISSION MEMBER

WANT PROBE OF "SLUSH" FUND CHARGE

Representative Heflin's Charge in Connection With Von Bernstorff to be Investigated.

By Associated Press Dispatch.

Washington, September 27. — Congressional investigations of the charges of Representative Heflin, in connection with the \$50,000 von Bernstorff "slush" fund, seemed certain today after Heflin appeared before the House rules committee, considering demands for action.

Democratic leaders said that if the Committee did not act by tomorrow the situation would be taken up on the floor of the House. Leaders are receiving such insistent demands for immediate action that it seems it cannot be longer delayed.

Complete Possession of Ground Gained on Six Mile Is Established.

German Counter Attack Repulsed Successfully.

French on the Aisne Repulse German Night Attacks.

By Associated Press Dispatch.

Yesterday's victory of the British in Flanders appears to have been as complete as any they have gained in this year's operations. Today found them not only in entire possession of the ground won on a six mile front, from Tower Hamlets to St. Julien, but pressing the Germans hard after repulsing numerous counter attacks.

It had taken hard fighting, nevertheless, to maintain the gains of from half a mile to two-thirds of a mile, which they won in Wednesday's drive.

The Germans returned repeatedly to the attack yesterday assaulting the new British line with large forces. They were successfully met at all points however, the British war office reports today. The German losses throughout the attack have been extremely heavy.

New fighting developed today south of the eastern extremity of Polygon wood, the Australian there giving the hard pressed Germans no rest. On the British right heavy fighting also continued for elevations northwest of Zonnebeke.

The French on the Aisne front had a German offensive movement to deal with last night. They met it successfully, repulsing with heavy losses the Crown Prince's troops which twice attacked French positions on the Chemin Des Dames.

ONLY QUICK ACTION CAN STOP FAMINE

Attorney General McGhee Sends Appeal to Dr. Garfield.

By Associated Press Dispatch.

Columbus, O., September 27.—If a coal famine in Ohio is to be avoided immediate action must be taken by the government is the declaration made in an appeal sent to Harry A. Garfield, national fuel administrator, by Attorney General McGhee.

"The people of Ohio," said Mr. McGhee in his appeal, "are practically out of coal. Utilities are living from hand to mouth. Schools and colleges of every part of the state are writing that they must have coal or shut down. Domestic consumers are panicky."

Mr. McGhee advised administrator Garfield that he has 400 letters from Ohio concerns supporting his claim of a coal shortage in the state.

Operators, he said, are refusing to fill orders of dealers at prices fixed by the president, giving as a reason that contracts made before these prices were fixed must come first.

ANTI-GERMAN PARADE HELD IN ARGENTINA

200,000 Marchers Express Hostility to Germans.

Sentiment for Break Seems Unanimous.

(Associated Press Correspondent)

Buenos Aires, September 25.—(Delayed)—The greatest demonstration ever beheld here took place today as an evidence of the unanimous feeling against Germany. There were 200,000 marchers in line led by a commission of Senators and Deputies of Uruguay while many thousands lined the streets as spectators.

All business was suspended. The demonstration was organized in 24 hours, indicating the unanimity of public opinion.

POWELL TO COACH AT CAMP SHERMAN

Western Reserve Man Will Direct Recreative Athletics.

By Associated Press Dispatch.

Washington, September 27.—O. W. D. Powell, athletic coach of Western Reserve University has been named director of athletics at Camp Sherman, by the commission of training camp activities.

Mr. Powell will devote all his time to the promotion of recreative athletics. The work is under the general direction of Joseph Roycroft, athletic director at Princeton university.

GERMANS CAUGHT IN BIG RAID

Plans to Wreck Machinery in Munitions Plants Frustrated by Raids.

Damaging Evidence Is Found When Prisoners Are Searched

By Associated Press Dispatch.

New York, September 27.—Plans to wreck machinery in munitions shops in America at the bidding of German agents in Europe are believed to have been defeated through the arrest of 100 Germans in raids which begun here last night and were continued today.

This forenoon the aliens, each guarded by detectives, were placed in automobiles at police headquarters and left for Ellis Island where they will be interned during the war.

Nearly all the men arrested are mechanics. A number are employed in munitions plants and on Navy contracts. In the possession of some was found diamond dust, a chemical used to destroy delicate machinery.

The men in almost every instance knew one another and had met at secret sessions at which police and secret service men were present, unknown to them, and had been under surveillance many months.

It is thought the diamond dust or carborundum reached here from Scandinavian countries in the form of lead pencils.

SPRINGFIELD WORKMEN ARE KILLED

Special to The Herald.

Springfield, O., September 27.—Several workmen were killed and others injured this afternoon when the Columbia Theater collapsed.

The building was being remodeled. The men were crushed beneath tons of brick and rubbish. The collapse occurred about three o'clock.

The number of dead and injured is placed at 20, according to early reports.

STOCKHOLM ELECTION

(By Associated Press Cable)

Stockholm, September 27. — Election returns in Stockholm show that two socialists, one liberal and 3 conservatives were elected.

The composition of the new second chamber will be as follows: Socialists who are supporters of M. Branting, 86; socialists of the left, 12; liberals, 62; conservatives, 53; new peasant parties, 12.

COAL DEFICIT 70,000 TONS SAYS REPORT

Mayor Oster, in Response to Request From Representative of Government, Says City With-out Coal and 70,000 Tons Short of Usual Supply at This Period of Year.

The gravity of the coal situation is indicated in a reply made by Mayor Oster to inquiry received from J. M. Roan, of Columbus, who is director of the Ohio Coal Clearing House in Ohio, and who asked the coal condition in this city in regard to household, hospital and school use.

The reply made by Mayor Oster declares that at the present time there is virtually no coal in the yards of local dealers; that the city schools have enough to last them until November 1st, providing the weather is not too severe, and that the community is 70,000 tons short of the normal supply of coal at this period of the year.

It is expected that as a result of the representations made to Roan that speedy action will be taken toward

EXAMINED AND FOUND FIT

Another contingent of Fayette's selects are being examined today, and those chosen will be found fit. Many people have examined our service and it has been pronounced fit. Why don't you, too, examine into this matter. It will pay.

**LARRIMER
LAUNDRY**
AUTOMATIC 5201; BELL 188 W

affording relief to Washington citizens, and that coal will be shipped to this city in the near future.

It is pointed out that unless the government takes speedy action toward relieving the shortage at this point, the situation will indeed be serious, and genuine suffering may be the result.

Mayor Oster's response was made after calling upon local dealers and ascertaining what coal was on hand and what percentage of citizens had obtained their supply for the winter.

NO PLANS MADE TO OCCUPY BUILDING

So far no definite plans have been made toward improving, occupying or leasing the city's recently acquired property on North Fayette street, adjoining the Engine House, and the building remains vacant with the key hanging in the Mayor's office.

Some of the city officials when asked concerning the disposition of the building declared they had no plans, and presumed this would be taken up in the near future and some disposition made.

Whether the mayor's office and other city offices will be moved into the structure, or whether the property will be leased by the city is uncertain. The building cost the city \$4250.

MAY SEND FORTY PER CENT NEXT TIME

Chairman J. M. Willis, of the Fayette Local Board is in receipt of a telegram from Governor Cox making inquiry if it will be possible to send 40 per cent of Fayette's quota the next time instead of only 30 per cent.

It may be possible to do so, but at the present time less than 25 men are in sight for the next contingent. However, the result of Thursday's examinations is expected to add fully a score of men to the list of availables.

It is not known when the next contingent will leave for the training camp.

BROTHERHOOD CLASS URGED TO RALLY

The Brotherhood class of the Presbyterian Sunday School are urged to remember that Sunday is Rally day and that every member should do his part in breaking all past records in attendance—let every man who has ever attended or even wishes to attend be in his place at 9 A. M. Sunday.

The Herald want ads always pay—why not try one today.

252 FROM FAYETTE ATTEND O. W. U.; JUBILEE PLANNED

Two hundred and fifty-two Fayette county people have attended Ohio Wesleyan University in the past seventy-four years. These alumni and former students are very much interested in the coming celebration of the Diamond Jubilee of their alma mater at Commencement in 1919.

A fund of One Million dollars for new equipment and increased endowment is to be raised before the time of the celebration. In raising the money the university is co-operating with the other Methodist colleges of the state in the great All-Ohio Jubilee Educational Campaign from October 21 to December 29.

Ohio Wesleyan was established in 1844 and owes much of its early development and tradition to the famous Sulphur Spring on its campus. The late Professor John Williams White, of Harvard University, said recently that he did not believe there was another college in the United States with so short a history which had turned out as many men and women who had risen to distinction in their country, as had Ohio Wesleyan University. He attributed this fact to "the high character and intense moral earnestness of the young people of the University."

The fact that Ohio Wesleyan has sent out over 1000 high school teachers and educators means a great deal in the educational progress of Ohio. Among the 5000 graduates and total of 26,000 people who have received all or part of their schooling at the university are noted a vice-president of the United States, men in Congress, college presidents, bishops, editors, and influential business men.

IN TRAINING FOR BASE HOSPITAL

Max G. Dice, formerly of the Herald staff, writes from Ft. Logan, H. Root, Arkansas, that there about 5,000 guardsmen stationed temporarily at the Post. They are mostly recruits of the Second and Third Arkansas regiments, and are assimilating military discipline and drill easily and quickly.

"It is inspiring to see them in their formal guard mount and retreat on the parade grounds every evening. The buildings here at the Post are arranged in a circle—covering the top of the low mountains and the parade ground is in the center. The lazy Arkansas river makes almost a circle around the mountain. You have never seen a real beautiful sunset until you have viewed one from Lover's Leap, on the west side of the mountain. People often motor up from Little Rock to see it."

Mr. Dice is in the base hospital. The members of this corps wear white uniforms just as in a civilian hospital and are on duty from 6:30 a. m. until 6:00 p. m. Either in the wards or about the hospitals wherever duties require. Young Dice was one of the first of the detachment to qualify as a nurse and got the ranking of first class private. He had the choice of going into the operating room but chose to stay in the ward as the experience there is much broader.

KIRBY HENDERSON TO BE RETURNED

Kirby Henderson, the young colored man who stole a Ford automobile in this city a few weeks ago, and was arrested in Hillsboro, where he has since been held, will be brought back to this city tonight to face the charge here. He was held in Hillsboro for exceeding the speed limit.

The automobile was the property of the Superintendent of the Sabina public schools.

Henderson has done time for stealing a couple of horses.

TWO COAL THIEVES ARE GIVEN FINE

John Burns, Jr., colored, and Raymond Davis, white, faced Probate Judge Allen this week on charges of stealing coal, their cases having been certified over to the common pleas court from Mayor Oster's court.

Each drew \$25 and the costs for the crime and the fine was suspended pending good behavior. They paid the costs.

Davis also is to face the grand jury next week on a charge of stealing hogs.

HUNTERS MUST BE OVER SIXTEEN YEARS

Under the law no person can obtain a hunter's license unless sixteen years of age or over.

The new law requires that all county and township clerks must charge a fee of \$1.25 for each license issued, thus eliminating the practice of rate cutting used for political purposes.

Craig Brothers

A Smarter Than Ever Hat Season

That hats are smarter than ever is true, but their diversity is so great that it is difficult to tell of the new ideas—for really no one idea is dominating the styles.

Panne velvet is very much favored, and duvetyne, wooly velours, hatters plush and plain velvet are largely used.

Colors are becoming stronger—beaver brown, moss green, navy blue, and peony and particularly one or two new grays.

The millinery department is an inspiring corner of the store, for there are so many smart new models always coming into the cases and onto display counters.

As to heights and widths and sizes in general, Paris seems to be *producing everything* so one may wear exactly what one will as to size.

The Velour Hat

For the business girl or for the woman who desires a lot of durability combined with style and quality. One dozen different models here for your selection.

CONDITIONS IN THE GRAIN BELT

The U. S. Board of Agriculture has announced the following crop and weather conditions in the corn and wheat belt, for the week ending Sept. 25th:

Temperatures near or slightly above the normal prevailed over central and western corn states and slightly below normal over eastern and southern. The rainfall was light in eastern sections except in small areas and was moderately heavy in Nebraska and northern Iowa and northward. The weather was favorable for the maturing of corn in Indiana and westward except that the nights were too cool. Corn is maturing more slowly in eastern districts on account of the cool weather. Considerable corn has matured and cutting has begun in most states. Ten to fifteen days are needed to mature the bulk of the rest of the crop. Plowing and seeding of winter grains progressed satisfactorily in most sections, although rain would benefit much of the eastern and the southern sections. The ground is in good condition in Nebraska and Kansas. Early seeded grains are germinating well. Pastures need rain in the east but have improved in the west.

Summary of weather and crop conditions in Ohio for the Week ending September 25, 1917.

On account of the continued cool weather, especially the cool nights, corn, tomatoes and late potatoes continue to mature very slowly in north and central sections. However, it is believed that all important crops will be safe from frost in the next ten days even in the most northern counties. The week was fine for completing the threshing of grain the cutting of corn the seeding of winter grains and fall plowing except in a few localities where it was most too dry for plowing. Early sown wheat is coming up and the stand is reported as good. A good warm rain would be very beneficial.

KIRBY HENDERSON TO BE RETURNED

Kirby Henderson, the young colored man who stole a Ford automobile in this city a few weeks ago, and was arrested in Hillsboro, where he has since been held, will be brought back to this city tonight to face the charge here. He was held in Hillsboro for exceeding the speed limit.

Social & Personal

The picnic under the auspices of the Woman's Guild of St. Andrews, held at the new church home on the corner of Fayette and East streets, Wednesday night, proved of practical benefit as well as a very enjoyable affair. Thirty-five Episcopalians, armed with shovels, spades and brooms, arrived early in the afternoon and worked until dark clearing up the grounds. The results were most satisfactory and the labors only whetted appetites for the more of the tempting picnic spread. Auto searchlights were turned on and furnished light for the supper and the merry hour which followed.

The Charlotte Tuttle Sisterhood has been engaged in many delightful social affairs, but the "weinner roast" at the Springer country home on Jamestown pike Wednesday night "knocked the persimmons." The glorious moonlight night, the big blazing fire and the free handed hospitality of the home lent impetus to one of the merriest evenings on record.

Sixty people partook of delicious winners, corn and potatoes, roasted in the coals of a big trench, dug at a convenient distance from the house. A big wood fire was also built and after the supper the guests spent a jolly hour telling jokes and stories while the logs crackled and blazed, and sent showers of sparks skyward.

Mr. Walter Sprenger was fine in the role of chef, and kept everything moving, assisting his mother, Mrs. A. F. Sprenger and Miss Alta Sprenger in making the roast a success. Rev. and Mrs. Gage were guests.

Mrs. Frank M. Fullerton entertained Wednesday afternoon with an informal little Kensington of neighbors to meet two guests visiting on the street, Mrs. W. N. Bean, of Hillsboro, and Mrs. John Zollinger, of Piqua.

A dozen women found the afternoon one of much pleasure.

At their country home near New Martinsburg Mr. and Mrs. J. B. Doster celebrated their Golden wedding anniversary Wednesday.

There is no milestone in married life which stands out with such pre-

A coat with an unusually clever collar effect. No. 2210.

It's peculiar what a little "know how" can mean in buying a fall coat or suit.

For instance—the woman who knows how wonderfully a Wooltex garment is tailored, and the greatness of its style authority will end this season happy with her purchase.

There are twenty-seven reasons why you get satisfaction in Wooltex Coats and Suits.

Will You find out?

Wooltex Coats, \$25 to \$65
Wooltex Suits, \$25 to \$75

The Frank L. Stutson Co.
The Store that Sells Wooltex Coats and Suits.

eminent interest as the golden wedding and the celebration of Mr. and Mrs. Doster's was unusual beyond the ordinary in that at the close of the half century of life together Mr. and Mrs. Doster are blessed with an unbroken family, the six children and the grand children all present to share in the happiness of the occasion.

Not only had Mr. and Mrs. Doster been highly esteemed residents of this county all their lives, but for thirty two years they have occupied their present home and a host of friends outside of the connection and immediate circle shared in the interest of the anniversary.

Seventy-five relatives and close friends were privileged guests at the sumptuous noon dinner, served with picturesque effect in a huge tent on the lawn. Although the national colors were in evidence a color scheme of gold and white predominated. Quantities of bright golden red and yellow field daisies combined with cattails was wonderfully pretty and gave a charming suggestion of autumn woods to the tent. Yellow roses and greenery were in graceful arrangement on the tables, and the bridal table was lovely, with big gauze bows hovering above a wealth of golden hearted roses, with butterfly effect. Yellow roses were the favors at the bridal table and miniature market baskets filled with candy and nuts were favors at the other tables.

Seated with the radiant bride (nee Catharine Leasure) and bridegroom of fifty years ago were Rev. and Mrs. Amos, of Wilmington; Mr. and Mrs. E. E. Cockerill, Mrs. Maggie Fortier and Mr. Bowman Hess. The strains of the Lohengrin wedding march sounded as the elderly couple led the way to their table.

The dinner was an elaborate one of four courses, the excellent catering done by the Misses Taylor of Greenfield—with the culinary delicacies was enjoyed a flood of reminiscences and felicitations upon the years which had touched so lightly the honored couple.

The memorably delightful day was rounded out in an afternoon of intimate sociability, to which music lent added charm.

Mrs. J. B. Doster, of New York city, who possesses a very beautiful contralto voice of great volume and resonance was repeatedly encoored after exquisitely rendered songs, and Miss Blanche Redkey, of Leesburg gave brilliant piano renditions. Victrola music was furnished during the dinner and the afternoon.

The six children admirably assisted in the hospitalities. Mr. J. B. Doster, of New York city; Hon. C. L. Doster, of Greenfield; Mrs. J. H. McMillen, Mrs. J. P. Murphy, of Cleveland; Mrs. Sada D. Trump and Miss Fern Doster at home, who had the arrangements of the day specially in hand. Mrs. J. B. Doster and Mrs. C. L. Doster were present with their husbands, and Mr. McMillen with his wife.

A number of handsome and appropriate gifts were presented to Mr. and Mrs. Doster with best wishes for the continuance of their peaceful home life unbroken.

Guests from a distance were Rev. and Mrs. Amos Cook, Mr. and Mrs. Chas. Cook, Mr. and Mrs. E. B. Doster, Mr. Shadrack, of Wilmington; Miss Blanche Redkey, Leesburg, and from this city Mr. and Mrs. J. S. Cockerill, Mr. Bowman Hess and daughter, Miss Ella; Mrs. Os. Briggs, Mrs. Margaret Leasure, Mrs. Jane Eyre, Mrs. Martha Capps, Miss Juanita Haines.

The Wesley Chapel Milt. Society met at the home of Mrs. John Markley on High street, Wednesday afternoon. The beautiful autumn day brought out a good attendance of ladies, who greatly enjoyed a Kensington, after the regular meeting.

Refreshments were served.

Messrs Fred Mark and Frank Kennedy spent Wednesday in Chillicothe on business.

Miss Minnie Wood of Wilmington is the guest of Miss Florence Michael.

Mr. Thomas Craig went to Columbus Thursday to attend the 106th annual session of the Ohio M. E. Conference.

Mr. L. S. Cheney of Varron, Wis., is visiting his brother, Mr. George Cheney and wife. His daughter Miss Menona Cheney who has been visiting at the home of her uncle, left the first of the week for New York to attend Columbia University.

Mrs. A. L. Walters is spending a few days with friends in Columbus.

Miss Jessie Leavell was called to the home of her parents, Mr. and Mrs. John Leavell, in Bloomingburg, Wednesday by the illness of her father.

Mrs. Orlan Snider came over from

Wilmington Thursday to be the guest of Mrs. Minnie Flee and family.

Mrs. J. L. Mahan of St. Louis, Mo. is the guest of her cousins, Misses Gertrude and Edith Gardner. Mrs. Kate Chestnut McCurdy, of Jackson was also a guest at the Gardner home over Sunday.

Miss Evangeline Robinson is the guest of Mr. and Mrs. W. L. Robinson, of Washington Avenue, this week.

Miss Metta-Michael returned Wednesday evening from a several days' visit with her sister, Mrs. A. C. Rush.

Mrs. Lon Buckley is spending a few weeks in Dayton visiting Mrs. Joseph Stauble and Mrs. Jack Mackshiene.

Mr. Edwin Weaver spent Thursday in Columbus.

Mrs. Geo. Greene of South Fayette street is visiting Mrs. C. B. Terrell at Wheeling, W. Va.

Mr. and Mrs. Leon A. Paddock (nee Nellie Hare) are announcing the birth of a daughter, on September 26th, at their home in Detroit, Mich.

Mr. and Mrs. D. M. Tharp of Dayton stopped over between trains Wednesday with Mr. Tharp's brother, Mr. W. A. Tharp and wife.

Mr. and Mrs. Raymond DeGroot of Broadway, are announcing the birth of a son, Glenn Lewis, Thursday morning.

Mr. Iri Sheppard, of the Base Hospital unit No. 29 came up from Cincinnati Wednesday for a short visit with his mother, Mrs. Cora Sheppard, and sister Mrs. Claude L. Clemens.

Mrs. H. T. Wilkin was a visitor in Cincinnati with her sister, Mrs. Howard Tolle, of Hillsboro, this week.

Mrs. Scott Hopkins and niece Miss Gretchen Willis spent Thursday in Columbus.

Mr. and Mrs. James A. Crawford, Mr. and Mrs. S. W. Cissna, Mrs. Parker Tanzey, Mrs. Lulu Cissna and daughter Miss Nelle, made a motoring trip to Columbus Wednesday.

Mr. H. C. Estberg, manager of the Washington Gas and Electric Co., spent Wednesday in Columbus to meet Mr. H. L. Hanley, of Chicago, also connected with the Gas and Electric Co.

Mrs. David H. Barchet hospitably entertained an informal "Bridge" of two tables Wednesday afternoon.

Mrs. L. E. Day, of Van Wert, is the guest of her sister, Mrs. J. C. Dunn.

Mrs. O. D. Smith is in from the country home, of her daughter, Mrs. J. A. McLean spending a few days the guest of Mrs. Jos. N. Willson and family.

Dr. J. F. Dennis left Thursday morning on a business trip to his farm in Indiana.

Mrs. George Melvin went to Wilmington Wednesday to visit Mrs. Paul Simpson.

Mr. and Mrs. Frank Parrott, Mrs. Lanny Morris, Dr. and Mrs. Sam Marshall Capt. T. F. Parrott and family were motoring visitors in Dayton, Thursday.

Mrs. Frank Morris spent Wednesday at the bedside of her mother, Mrs. Ed. McCoy, at Jasper Mills. It is welcome news that Mrs. McCoy is improving and hopes to be out soon.

H. T. Wilkin, Geo. A. Gregg, Martin Hughey and Earl McCoy motored to Camp Sherman, Chillicothe, Thursday afternoon.

RAIN NEEDED FOR THE LATE CROPS

The rain of Thursday was welcomed by a great many farmers, even though every hour in the corn field is very valuable at the present time.

The rain will, to a large extent, prepare the soil for wheat sowing.

Jacob Daugherty Admits to Columbus Police That He Stole Ford From Virgil Vincent Tuesday Night—Had Sold Car—Pronounced Unusually Clever.

When Chief of Police D. L. Moore and Virgil Vincent arrived in Columbus Wednesday and went to police headquarters they discovered that the man under arrest was Jacob Daugherty, aged 19, of this city, who until some weeks ago had been employed at a local garage. The young man is said to have admitted the theft of the car, and he was positively identified by the man to whom he had sold the car.

A written confession was obtained from the young man, and this is now in the possession of the police. Before Mayor Oster, when he was brought back to this city, Daugherty entered a plea of not guilty. His preliminary hearing will be held in the near future.

According to the police Daugherty admitted that he had stolen the car and knew to whom it belonged. He confessed to driving the machine out Market to North; North to Palmit and thence to Bloomingburg and later to Columbus, arriving in Columbus late in the night and stopping at the West Town street garage, where it is presumed he gave a set of curtains and an inner tube for gas and accommodation for the night.

Appearing at the Arnold garage at the corner of Gay and Third street, he offered the machine for sale, asking \$300 and declaring that the machine had been given to him by his father; that he had been summoned on a 24 hour draft and must go to Chillicothe to training camp; that he wished to dispose of the car at once so that he could have the money. The deal was made at \$200 providing the young man could prove his identity. This he started out to do, accompanied by Arnold, who finally grew suspicious of the young man and turned him over to the police. He gave the police a struggle before submitting, and then a fictitious name.

The police at Columbus declared that the young man had shown himself unusually clever in many ways in connection with affair, but made serious blunder when he attempted to sell the machine in Columbus and without an effort to disguise the car in any respect.

Upon his return to this city in the custody of Chief Moore the young man was placed in the county jail. Meanwhile a full investigation will be made to ascertain if he has been connected with other similar deals pulled off in this city.

ORDERED TO GET AND STAY AWAY

A girl giving the name of Mrs. Ed George, claiming to hail from the Milledgeville locality, was picked up by the police, Thursday morning, and ordered out of the city and instructed to stay out under penalty of the limit of the law if she returns.

The woman said to have been married July 20, and is 17 years of age, while her husband is 36.

HOSPITAL NOTES

Mrs. Bert Shimp of Sycamore St. was operated on Wednesday night at the Fayette Hospital.

OBITUARY

Ell Wilson, a well-known farmer of Highland county, Ohio, was born on his grandfather St. Tee's farm near New Petersburg, May 18, 1824, son of William and Sally (St. Tee) Wilson.

William Wilson, the father, was born in Fayette county, Ohio, and lived there for thirty-five years. He inherited an interest in the home place, subsequently purchased the interest of the others heirs, and in 1859 traded the property for the farm of 212 acres where his son, Ell, now lives. He died here in 1864. Of his large family the records mention the names of eleven children, of whom only two at this present date, John and Lucinda, (Mrs. Joseph Tracy) are living.

Mr. Wilson's grandfather, Joshua Wilson, came to this state from Maryland at an early day, and in the forests of Fayette county acquired and improved the farm above alluded to. He paid for his land in a unique way, namely, with wolf scalps, one scalp being sufficient to pay for an acre. His parents were Scotch. Grandfather St. Tee was of French origin. He died at the age of 70 on his farm near New Petersburg. Ell Wilson's first farming was done in Fayette county, in 1868 he bought of the other heirs their share in the farm, moving here at once, and has since made his home on this farm.

March 15, 1852, he was married to Catherine Tracy. The children of this union are Multon, Wm. Newton, Sarah C. Alonzo, Sophia, who died in child hood, Samuel J. Elias Curtis, Caroline Matilda, wife of Thomas Hillery, Joseph E. and Edward who died in childhood. His wife died February 8, 1872. Mr. Wilson was again married in 1873 to Miss Caroline Smith. The children of this marriage were Minnie, wife of B. D. McVeigh, Ollie, Harry O., and Nellie, wife of Chas. Head. His wife, eleven children twenty-two grand children, fifteen great-grand children are left to mourn his loss.

Mr. Wilson was widely known and universally respected for his sterling qualities. A man of strong will power, he was energetic and successful in business and thorough and efficient in all his undertakings. He was a man of strict integrity of character, honest, upright and generous in all his dealings. He delighted in extending hospitality to his acquaintances and friends, and many recall his kind disposition and remember, gratefully, assistance rendered them in time of need.

He retained his faculties to the last and on the day before his death recognized each of the nine children who were permitted to be with him in those last hours. He was inclined to the Quaker faith and expressed himself as ready to go and hoped when his time came that he might peacefully lie down and go to sleep. This hope was realized in his peaceful passing away, at one o'clock Monday morning, September 10, 1917, at the age of 93 years, 3 months and 22 days.

Teaching Economy to America

No, very marked, reduction in food and fuel prices due, either directly or indirectly, to the efforts of the national food administration council headed by Herbert C. Hoover, has yet been felt by the American people.

Perhaps reduction in the prices of the necessities of life will come later as a result of the efforts now being made to conserve and to prevent unjust combinations of greedy food and fuel pirates and perhaps no material reduction will be experienced at all.

Whether it is or not depends upon several contingencies, and the practicing of economy by the American people is only one of the contingencies. It is, perhaps, the most important one though. Much depends too, upon how great a demand our allies are going to make upon the United States for food and fuel.

Every effort of the food administrators is now being exerted to teach the American people to get down to necessities in food and fuel and if those efforts are successful—if the people learn that there are some things they can do without, that to consume more than is necessary, either in food or fuel, is waste then a great good has been accomplished.

We would, all of us, of the middle classes like to see prices drop, but if we can learn to buy only what we need—cut out the awful waste—there will be less of occasion to open up the family purse, even though prices are not reduced.

We eat too much and we keep our houses—residences and places of business—too warm. We can do with less and we must do with less.

People have spent many hours during the last decade wondering why prices kept going up and all the time they were demanding more than they needed and wasting the necessities.

It is next to impossible to teach people economy in prosperous times. The war and the war's necessity, the call to patriotism, promises to teach us thrift and economy.

Let's Talk It Over

The men chosen by the voters at the special election to frame a charter for the government of this city have concluded their work.

Our charter commissioners have had an advantage in being able not only to examine critically the work of other charter commissioners who have pioneered in the work of devising better governmental forms for municipalities, but also to profit by the mistakes made by the earlier commissioners whose work, actual experience has shown, in some of its details, to have been faulty.

The completed charter is now ready for submission to the voters of the city. Arrangements have been made, very wisely, by the commissioners for placing a copy in the hands of each voter at an early date.

All of which means that there will be no excuse for any voter to not be fully advised as to just what the charter provides. The best features in a number of city charters examined have been incorporated in the proposed charter for this city and the unsatisfactory provisions have been avoided.

It is now up to the voters of Washington to advise themselves and make up their minds as to whether or not they want a change.

Later on in the campaign it will be profitable to all concerned to discuss the provisions of the charter. The work of the commissioners concluded—citizens should discuss the proposal with each other.

Speak up. Every voter who has an opinion has a reason for it and the public wants to know every view and every reason, pro and con, the time is here now to talk it all over.

Give Them a "Square Deal."

The women of America are and have been doing great and noble work for the nation. They have responded as a unit everywhere to every request. They have taken up new lines of difficult work and perfected their organizations everywhere, given up social pleasures, for the great work of the time, and agreed to every request to practice self denial and economy which the national food administrator has made.

The men should not make the mistake of under estimating the tremendous value of this great work which the women of the land are doing.

Only with the active and intelligent co-operation of the good women of the United States is food conservation possible. They not only handle all the food stuff but they absolutely control its use—they can be wasteful or they can be immensely helpful and they are the latter.

The legislature, at its last session, gave to the women of the state, the presidential suffrage and no formalities of law should be permitted to deprive them of that privilege.

The men of Ohio—the officials—who are asking so much of our women should see to it that they get a "square deal."

Poetry For Today

AUTUMN DAYS.

Today the sycamores are gold and green
 With tawny splendor and a mystic sheen
 Vells all the distant hills in silver light
 Now, hidden at some far sequestered height,
 A lonely crow caws plaintively. The breeze
 Comes fluting soft and low amid the trees.
 The royal thistle lifts her purple plume
 On crests where golden road and asters bloom,
 And over all, in tender brooding haze,
 There lies the witchery of autumn days.

The sumach flaunts its scarlet banners bold
 In the autumn sunlight shot with summer's gold.
 Adown the orchard meadow floats a song,
 With clear refrain and echoes loud and long.
 Great water lilies screen each dreamful pool
 And crickets chirp from shadows deep and cool.
 The wood dove calls. The gray hawk circles high
 Where the lazy clouds trail 'cross a lambent sky.
 And over all the lovely sylvan ways
 There sleeps the sorcery of autumn days.

FARM NOTES

"ON TO WASHINGTON."

One thousand persons are to be accommodated on the Sixth Annual Corn Boys' Tour to Washington and New York, starting December 3. Five hundred of the excursionists will be the boys and girls who have won trips during the past year in boys' and girls' club work conducted by the Ohio State University College of Agriculture. Reservations for the other 500 will be made for parents, uncles, aunts, cousins and other relatives and friends who wish to accompany the lads and lassies on their sightseeing trip to the East.

The schedule calls for stops at Pittsburgh, Washington, Mt. Vernon and New York City, with enough side trips at each stop to enable the visitor to say something more than that "I have been there." Every minute of the time during the entire week has been carefully planned by traffic experts and guides so that there will be no unnecessary delays between visits to points of educational interest. The detailed schedule, however, at each stop is not compulsory and visitors may plan their own program at any point if they desire to do so.

Further information may be had of W. H. Palmer, State Leader Boys' and Girls' Clubs, the Ohio State University, Columbus, Ohio.

BEE KEEPRERS' DEMAND.

Still another fireside college course is offered by the College of Agriculture without cost to the residents of Ohio. The latest one is the bee course. Stimulated by the war, the honey industry is becoming more and more important. The increasing number of difficulties in honey production such as foul brood and the presence of insect pests have called for considerable information on bee raising. The new course has been prepared in response to this demand. The author is J. S. Hine, in charge of the bee courses and apiaries at the College of Agriculture. Questions of correspondence students regarding bee problems will be answered along with their lessons.

Anyone desiring to enroll in this course is invited to correspond with J. E. McClintock, supervisor of bulletins and correspondence courses, the Ohio State University College of Agriculture, Columbus, Ohio.

PAYS BIG TO SELECT CORN

Few farm practices pay better for the labor expended than selecting seed corn in the field when the crop is ready to go in the shock. Yields indi-

THE WAR BOARD SAYS TODAY:

Youngsters can aid in the war.
 They can help by guarding against fire in the home, for the German armies would burn our homes if they could.
 So the children can help in these ways:
 Don't light a fire or play with fire.
 Don't let anyone throw away a match until it is out.
 If you smell smoke at night, awaken the family.
 Keep away from the matchbox. It's better to be safe than sorry.
 Never start a bonfire unless there is some grown person to help you keep watch.
 Be sure baby's buggy or crib is not too close to an open fire.
 Have father put up screens.
 Be careful in drying wet clothing or shoes. They cost more in wartime, and may catch fire when too close to the stove.
 Ask father not to hang up his coat in the closet with matches in the pockets. Fire burns fingers, and destroys your home.

cate that an average increase of three and one-half bushels per acre is obtained. As it takes but six bushels to plant from 35 to 40 acres of corn and a man can select that much in a day it will be seen that, at the present price of corn, no cornfield is too small to warrant neglect of this matter. Although the farmer is busy in the fall, he is usually busier in the spring, when crib selection is resorted to.

MILITARY MAINTAINS LIGHT PLANT HOLD

(By American Press)
 Chillicothe, O., Sept. 27.—Military authorities still are in charge of the Chillicothe electric light plant and Chillicothe streets were dark last night in order that barracks and quarters of Camp Sherman might have light. It was definitely settled that the camp will get light from the plant that has been furnishing Chillicothe until the high tension line from Columbus is completed, while Chillicothe streets remain dark. A big force of men is rushing work on the line and expect to finish this week.

The attitude of the Chillicothe administration has not caused concern to Camp Sherman officers. The effort to force the electric light company to furnish city lights, which would have necessitated cutting off lights at Camp Sherman, was met as a military emergency. Just as several other situations have been met. The military authorities simply took charge.

GENIUS DIES IN UTMOST POVERTY

(Associated Press Correspondence)
 London, September 27.—A genius who might have amassed a fortune died in comparative poverty and obscurity in London recently because he was too proud to give the world work which did not attain to his ideals. Few people, even among those in the art world, remembered that Matthew Maris, the once famous Dutch painter, was still living, and fewer knew that London was his home, until the announcement of his death at the age of 78 appeared in a morning paper.

Matthew, the last of the family of three gifted brothers, was one of the geniuses who approach to madness. His smallest picture was worth from \$10,000 to \$25,000 in the auction room, but one rarely saw the light. He painted only when he felt moved to paint, and he felt moved very seldom. Of late years he absolutely refused to sell his work. Some of those who knew him say that he was a great idealist, but others with a more common-place point of view declare that he was merely lazy.

Maris lived almost the life of a hermit, and was supported by the gener-

osity of a few friends. His studio was barred to everybody, sealed against the world as religiously as the hall of a Yale senior society. What the old painter did there no one knows but it is believed that he painted pictures—the least of which the greatest galleries of the world would covet—and then burned them because they did not realize his visions.

Hundreds of Garments on Display

Offering the Choice of the Season at Moderate Prices

The New Suits and Coats

are admired by everyone. Designed to give wanted youthful effect of slenderness and straight lines. Here and there you will see a strictly tailored Suit while others will be elaborately trimmed with fur. Coats are hard to describe for they are the most beautiful we have ever seen. Soft, silky fabrics, some showing the military influences while others, like the suits, are gracefully trimmed with fur, but all you will find lined with the most gorgeous silks.

As For The Prices

we believe that we are safe in saying our garments are very little if any more costly than last season. For example the two Wooltex tailored garments illustrated above.

\$34.50 The Suit **\$24.75** The Coat

Others Priced for \$10.00 to \$85.00

Of course we have our wonderful special in Suits at \$14.85 and the few who have seen them pronounce them wonderful.

Our New Blouses

at \$5.00 and \$5.85

are attracting attention. With your new suit you may want a blouse to match and if so we have it in just the shade to match.

New Neckwear at

25c

50c

75c

\$1.00

Just received. These new styles which show all the new ideas, and we are pleased to offer such quality at these prices.

"The Silken Romance"

Don't Miss It! Belding Bros. & Company's \$50,000 Reel "The Silken Romance." Intensely interesting. Scenes from Japan and America. Hand Colored. Latest Paris and New York styles in silk costumes. The PALACE THEATER, Wednesday afternoon. Secure tickets in our Silk Department.

Furs! Furs!

Fashion Demands They Be Worn This Season

and they should, too, for very moderately priced they are. You will find the most wanted are Foxes, in black, taupe, red and grey, while fitch, lynx, kolinsky and beaver are popular, too.

There are so many prices we could not mention all here but our line is so large and varied that it will meet the requirement of all.

The Children Are Not Forgotten

We are proud to say that we can now offer to the public one of the most complete departments of children's apparel ever shown in this city.

What a Joy This Should Be To All Mothers

to be able to find attractive garments for their little ones, and best of all, at such moderate prices.

The Frank L. Stutson Co.

METHODS SUGGESTED TO PROTECT FORDS

Numerous ways of making it hard for a thief to get away with an automobile have been suggested, but one made by Sheriff Jones seems to be among the most logical, and is nothing more or less than the painting of the license number on the rear of the car using white paint. In this manner when a car is stolen it is easily

distinguished and renders the thief more liable to detection. Other methods suggested are the initials of the owner on the car, locks of various kinds, and turning off the gasoline underneath the tank.

NOTICE

The D. of A. Lodge, Nora Dye Council, No. 182, will hold the regular session this evening at 7:30 at the I. O. O. F. Hall.

FRANKFORT MINISTER GOES TO ILLINOIS

The Chillicothe Presbytery, at an adjourned meeting Tuesday, dissolved pastoral relations between the Presbyterian Church of Frankfort and its pastor, Rev. A. S. Kaye. Rev. Kaye will be transferred to the Matton Presbytery, of Illinois.

Rev. Wm. Boynton Gage, of this

city, was made chairman of the vacancy and supply committee.

PATIENT BROUGHT TO THE HOSPITAL

Mr. Elmer Klever brought Mr. Herbert Coll of Bookwalter, in his ambulance to the Fayette Hospital Wednesday evening. Mr. Coll is suffering from typhoid fever.

UNLOADING HUGE ELECTRIC UNIT

An interesting piece of work is under way at the plant of the Washington Gas & Electric Company, at the present time where the huge 37,000 pound generator is being unloaded and moved to its new resting place in the company's plant. The generator made a carload, and when removed from the car by means

of pulleys, skids, and rollers, was found to be too large to get through the large door in the plant, so that it was necessary to remove a section of the piece of machinery.

Scattered about the plant are sections of the unit, some weighing 25,000 pounds each.

The concrete foundation is nearing completion, but it will be several weeks before the generator is placed in use.

Boost Washington; buy at home.

RUMMAGE SALE

The Willing Workers of McNair Memorial church will hold a rummage sale October 3rd. Sale will be held in the Hegler double house east of Delaware on Temple street, 223 to 225.

NOTICE

Millwood Bible Class will meet at the home of Mrs. Charles Hough on Millwood Ave. Friday afternoon at 2:15 o'clock.

100 MEN ARE EXAMINED BY LOCAL BOARD

Partial List of Those Who Passed and Those Who Failed in Military Physical Examinations at Memorial Hall Today—Small Army of Examiners.

The busiest day the Local Board has experienced since being appointed was Thursday when the work of examining 100 men called in was taken up and occupied the entire board and a small army of assistants throughout the day.

The work started promptly at eight o'clock Thursday morning, and with the exception of the noon recess, was continued without interruption throughout the day.

A large number of splendid physical specimens passed before examiners while quite a few were turned down because of physical defects.

A partial list of those who passed and those who failed is given below:

- MEN WHO PASSED**
- 1567 Oney Ernest Howman, Bloomington.
 - 1284 Clyde McBee, Rt. 6, Washington C. H.
 - 191 Charles Virgil Sexton, North & Western Ave., Washington C. H.

SWITCHING CREW FAILS TO REPORT

By Associated Press Dispatch.
Gary, Indiana, September 27.—Between 700 and 800 men employed in the switching yards of the E. J. & E. railroad did not report for work today.

The road controls incoming and outgoing freight of the big plant of the United States Steel Corporation.

According to a statement by F. N. Rogers, vice president of the road, which is a belt line of great importance in the terminal facilities of Chicago and territory, the men met last night and decided to strike.

In the Gary yards there are 22 locomotives of which six were operated today. At South Chicago there are 26; four of these were working. The day switchmen asked for an increase from 35 cents, the present hourly scale to 70 cents, and the right men from 40 cents to 75 cents.

Railroad officials said they had not had time to learn whether German propaganda had anything to do with the strike.

U.S. CONCEDES ELECTION OF GEN. CARRANZA

Ambassador Fletcher Is Formally Notified.

By Associated Press Dispatch.
Mexico City, September 27.—Henry Fletcher, the American Ambassador today received a letter from the United States Government acknowledging the election and seating of Venustiano Carranza as president.

This is the final move in the recognition of the present Mexican government.

FORT ANCIENT TRIP IS AN IDEAL ONE

Washington and Fayette countians desiring an ideal motor trip will find such in a visit to Fort Ancient, some 40 miles from this city, and one of the most notable remains of the handiwork of the Mound Builders in the world.

"The Fort" as it is called in the community in which it is located, may be reached by going through Wilmington, thence to Clarksville and after following the railroad a short distance, out onto the Fort Ancient road, the Fort being reached without difficulty, and good roads will be found much of the way. No very extensive hills are encountered on the trip, except the Fort Ancient hill itself.

The Fort is open to the public, being state property, and a large grove inside the great earthworks offers an ideal place for a picnic dinner or supper.

An entire day may be spent in walking about the great Fort, which is located upon a plateau overlooking the Little Miami river, and which offers one of the grandest views in Ohio.

Nearly 100 acres is enclosed by the big earthen embankment constructed centuries before Columbus discovered America. A guide to the fort may be purchased at the house near the gate leading into the fort, and will be found worth while.

The sagacity and engineering skill displayed in building the great earthen barrier is remarkable, and the Fort is worth a long trip to see and study.

CLASSIFIED

WANTED — Boarders; also have two unfurnished rooms for light housekeeping; close in, 117 E. Temple St. 228 16

PRINCE RUPPRECHT DEFENDING GERMAN FRONT IN FLANDERS

DRIVE FOR DOLLARS TO WIN THE WAR BEGINS OCTOBER 1

Special to The Herald.

Cleveland, O., September 26.—The campaign for the Second Liberty Loan of 1917, will be formally opened in Cleveland at ten o'clock a. m., October 1st, when Secretary of Treasury McAdoo will make his first address, raise a Liberty Loan Flag on the Public Square, and sell the first liberty bond. Secretary McAdoo will speak at a luncheon to be given at the Chamber of Commerce Auditorium at 12:15 p. m. following flag raising. At eleven o'clock he will address the workers of Cleveland Committees.

Hon. Myron T. Herrick, formerly Ambassador to France, will preside at the luncheon to business men.

The campaign will be carried on actively from October 1st, to 27th, and committees in charge of the work here have completed all their plans.

USE OF THE BAYONET IS TAUGHT MEN

Best Methods of Sticking the Huns Are Being Drilled Into New Men. Athletic Contests Planned.

By Associated Press Dispatch.

Camp Sherman, Chillicothe, O., September 27.—Bayonet fighting as it is being taught at this military training camp for Ohio and Western Pennsylvania draft troops, knows little of defense.

Offense, or "getting the Hun," is the one big thing in learning to handle the "pin," as instructors call the wicked knife or bayonet on the end of the rifle.

The lessons have little about defending one's self against attack. About the only defense taught is to waste no

motion. Just a very slight tilt of the gun when the enemy is coming upon the bayonet fighter makes up the chief part of the protection end of this very important asset of modern warfare.

Men here are being trained to meet the enemy's jab or thrust with not more than a six-inch movement of the rifle. This is required because, when the enemy is rushing to the bayonet attack, he has but one chance—the first lunge. If this can be knocked off with a single movement the assailant is pinioned upon the enemy's bayonet.

Selective draft men will get the full British bayonet course before they leave Camp Sherman and it will be so wholly different from the old bayonet exercise as to compare little with it in the simplest manipulations. The course likewise will include a certain amount of wrestling, tripping, Jui Jitsu and a vast number of ways of using the "pin" required for various circumstances under which attacks are made—from above, from below, from one side, around the corner of a trench, etc.

One of the striking "different" things about bayonet fighting so far as Americans are concerned is that it will require fighting "from either foot." The American army has always fought with the left foot to the fore.

Organization for athletic contests, football in particular, has been started at Camp Sherman under leadership of Y. M. C. A. physical directors, headed by Coach Connor, one of the best known out-door sport directors in this part of the country, and soon the camp will be one of the greatest sport fields the state has ever known. Forty-three thousand physically perfect fellows of "athletic" age insure that.

Major General E. F. Glenn, camp commandant, soon will name an officer who will be the court of last resort in athletic matters for the entire division stationed here. Then there will be a board of three army officers well versed in sports who will be in general charge of all athletics. Under these three will be one officer from each regiment. Then under each regimental member will be company representative. An officer will be designated, probably a lieutenant, to take care of all athletic affairs in his company. This officer in turn can pick his leaders, such as a man to handle football, another to handle baseball, still another for boxing and so on—taking in all sports, such as tennis, hand ball, indoor baseball, basketball, quoits and other games.

Football practice already has been started by some "outfits," but it will not be in full swing until some of the new recruits get over the effects of their vaccinations. Several organizations already are raising funds for bats and balls, footballs and the like.

Boost Washington; buy at home.

GAINS SCORED ON SIX MILE FRONT

(By American Press)

London, Sept. 27.—A new British drive was launched against the German lines in Flanders, Field Marshal Haig's men penetrating the enemy's positions to the depth of two-thirds of a mile.

The fighting, which is of the most desperate character, is continuing.

Notwithstanding the necessity of carrying the battle to Crown Prince Rupprecht across uninviting ground virtually a morass, owing to recent rains, and against the inevitable concrete and steel redoubts and woods and shell craters teeming with rapid-fire guns, the English, Scotch and Australian troops have snatched valuable vantage points from the Germans, but not without terrific opposition.

The battle at last accounts was still raging, with the greatly reinforced Germans, who had anticipated the new thrust, fighting with unusual bitterness to hold back further British advances or to recapture terrain already wrested from them.

Haig's new thrust was delivered on a six mile front from the base of front line positions captured and consolidated last week, before which the Germans held numerous vantage points of strategic value, barring the way to further inroads by the British or for harassing the British line by machine gun and rifle bullets.

As on previous occasions, General Haig loosed a veritable inferno of artillery fire against the Germans before launching his attack in the early hours of the morning, and when night fell many important positions had been riddled of the enemy, but the Germans at numerous other positions savagely contested the right of way.

Probably the most significant gain of the British was near Zonnebeke, to within a few hundred yards of the western outskirts of which village they penetrated, placing them about six miles from the railway running from Ostend through Roulers and Roubaix to Lille. The cutting of this line, which seems to be the objective of Field Marshal Haig, would seriously affect the transport of the Germans from their naval bases at Ostend and Zeebrugge to the south.

Prior to the land attack British naval forces heavily shelled Ostend. Meanwhile naval airplanes dropped bombs on towns in northern Belgium with visibly effective results.

On the other fronts, except in the Champagne and Verdun sectors of the line, in France, no hostilities of great importance are in progress. Before Verdun the big guns again are roaring in a mighty duel, evidently the forerunner of further big infantry operations in the near future. In Champagne the French are heavily shelling the positions of the German prince, with the German artillery answering them energetically.

In the Austro-Italian theater the Italians continue to carry out successful patrol engagements against the Austrians and to drop large quantities of explosives from airplanes on military establishments behind the line.

PRESIDENT PLANNING FOR PEACE MEET HOUSE ARRANGES

(By American Press)

Philadelphia, Sept. 27.—That President Wilson is preparing plans for a peace meeting is the essence of a dispatch from Washington appearing in today's Public Ledger. The Ledger says:

"As is well known, both France and Great Britain have for some time been making active preparations in their own behalf for a peace conference. Many letters corroborating this fact have been received in important quarters in America during the last few months. It may safely be assumed that other, and perhaps all, of the belligerents in Europe are making their own preparations for the peace conference. Of course, there is nothing in these activities incompatible with the heartiest possible support of the war.

"Thus there has lately been felt to be a growing need in America for a series of similar activities, unless we are to go greatly handicapped into this peace conference when it comes. In quarters where this need has been duly appreciated the knowledge that President Wilson has requested Colonel E. M. House to organize and direct American activities in this field meets with unqualified approval. It would be altogether erroneous, however, to attach unwarranted significance to the fact that America is about to make definite preparations on her own behalf for the peace conference.

"Such a step on the part of America would not be a step in the direction of peace and could not be properly interpreted as having the slightest bearing upon any possible date of the peace conference. It would simply mean that America had decided to follow the other allied governments in establishing an intelligent organization of its own. In addition to the regular diplomatic agencies and free from the official connections which would necessarily hamper the state department in this field."

SUIT OF ROUGH TWEED MADE WITH WAISTCOAT

This tweed suit is a veritable Louis Seize affair, so far as the length in concerned, and is rendered more interesting by being effected in a big, bold check. For general utility a lark pepper and salt rough tweed is the choice that commends itself, with, for the waistcoat and side pieces of the skirts, a gray and black plaid, over-checked with fine lines of powder blue and yellow. The coat is cut on severely straight lines, although the adept tailor knows how to introduce just a suspicion of shapeliness without detracting from the elongated elegance. A collar that is part of the waistcoat plays a decorative part.

WORSTED THE SUBS IN SEA ATTACK

(By American Press)

Washington, Sept. 27.—Passengers arriving at an American port from England state that two submarine attacks on a steamer carrying 3,000 American troops were repulsed and another attack on a ship carrying 2,500 Canadians was defeated and two U-boats are believed to have been sunk. In the first attack on the steamer which was carrying Americans a torpedo passed close under its stern the passengers declared. Then the ship's gunfire made the U-boat dive. Next day a submarine appeared dead ahead of the troops ship. A small British destroyer sank the German with three shots, according to the stories. Twelve hours later another liner carrying Canadians rammed and sunk a U-boat before it could launch its torpedo, according to the passengers.

ROOSEVELT POINTS OUT THE FAILURES

(By American Press)

Rockford, Ill., Sept. 27.—Speaking on preparedness and pacifism at the camp here Colonel Theodore Roosevelt assailed the lack of preparedness in the present conflict even after three years' warning.

Asking General Barry to correct him if he erred, the colonel gave detailed statements regarding the equipment at Camp Grant, reports of which had failed to pass the camp censorship. There were about 5,000 rifles available for drill purposes, he asserted, or roughly, three men to drill with one gun, adding that Camp Grant was far ahead of other camps in this respect, according to information he had received.

The pre-war assertion that "a million men would spring to arms between sunrise and sunset," he countered with the claim that, "in eight months, that number had sprung to broomsticks," this statement being in connection with his assertion that men in other camps had only broom handles to aid them in learning the manual of arms.

OUR BIG WAR BILL

(By American Press)

Washington, Sept. 27.—America's war bill for the first year will be at least \$18,500,000,000, Treasury experts computed that the United States government is now spending about \$1,500,000,000 a month, \$50,000,000 a day, or \$2,000,000 an hour. America has loaned to the allies to date \$2,426,400,000—at the rate of about \$13,480,000 a day.

SUBCOMMITTEE DISCUSSES SCALE

(By American Press)

Washington, Sept. 27.—Demands of Illinois, Indiana, Ohio and western Pennsylvania coal miners for wage increases of about 25 per cent are in the hands of a joint scale subcommittee of miners and operators, with indications that as a result of the operators' flat refusal to grant more pay, Dr. H. A. Garfield, the fuel administrator, will be called into the negotiations.

The operators contended that the wage demands presented at the joint conference were exorbitant in view of the government fixed prices for bituminous coal, and that even without giving the miners more pay, many mines would be forced to suspend. They agreed, however, to discussion of the demands by a subcommittee.

Results of the deliberations will be communicated to Dr. Garfield by John P. White, president of the United Mine Workers and chairman of the committee, who is also an official adviser of the fuel administrator.

Most of the miners' leaders agreed with the operators that an advance is impossible under the government prices, and admitted that their only hope lay in an expected revision of the prices after Dr. Garfield and the federal trade commission, complete an investigation of production costs.

In preparation for extensive dealings with the fuel administration over questions of prices and production, operators of the entire country, meeting here, perfected organization of the National Association of Coal Operators and elected W. K. Field of Columbus president.

An advance of about 50 cents from the government basic rate of about \$2 a ton, with 15 or 20 cents more for the less efficient mines, was urged by "war" operators as a proper revision to permit payment of higher wages, allow profitable operation and guarantee no diminution of production in the war emergency.

Quality First

Air-Tight Hot-Blast

FLORENCE

No Clinkers or Half-Burned Coal!

With the "Florence" clinkers or half burned coals are not known. For with its perfect combustion everything is consumed. Your coal is burned to a fine powder ash. With everything burnable in it gone, you have gotten 40 per cent more efficiency.

It Will Burn Everything

Did you ever notice the smoke and gas of a soft coal burner go up the chimney? And then did you consider that all this was an exorbitant waste? That if it could be burned up it would mean a great saving. Well that's just what the "Florence" does. It burns everything and anything. Its own smoke and gases. And does not rob you of 40 per cent of your heat.

MEN OF HIGH TYPE OF CITIZENSHIP IN SELECTIVE ARMY

By Associated Press Dispatch.

Chillicothe, O., September 27.—Army officers at Camp Sherman were agreeably surprised at the type of men the selective draft brought to the training camp here. Instead of rough, uncouth, hard-to-handle gangsters, they soon learned that the new men represented a very high type of citizenry.

Amusing stories are told by some of the 721 regular army non-commissioned officers who were sent here from various Western forts to act as instructors. They didn't know what

this selective draft army had in store for them. Some came with years of experience in handling "tough" men and they make no bones of telling now that they had planned to sleep with one eye open and with a club or piece of gas pipe near at hand. One remarked he had already doped out a scheme of stopping barracks fights.

But there has been nothing like their mind-eye pictures. The new soldiers here are inclined to be just the opposite. They work eight long hours drilling in day-time and either go to bed, write to their home folks, read or enjoy entertainments at the army Y. M. C. A. buildings or something of the sort. There are, of course, exceptions to the rule but it is the rule rather than the exception that is prominent here these days.

Union County Corn Farms

Buy One of These Farms Before They Are Sold At Advanced Price.

- 35 acres sugar tree soil, good 7-room house, large barn, price \$3,000.
- 55 acres good soil, fine location, good buildings, price \$147.50 per acre.
- 70 acres good soil, extra good buildings, price \$115 per acre.
- 80 acres corn land, good buildings, fine location, price \$130.00 per acre.

BAKER ISSUES FIRST STATEMENT ON THE MILITARY

(By American Press)

Washington, Sept. 27.—The American government's first official statement concerning military operations in Europe was issued by Secretary Baker, inaugurating a series which in time will be devoted largely to activities of the expeditionary forces.

The statement says that while ascendancy on the west front has passed definitely to the allies, they are content merely to wear down the enemy until the force of the American army makes itself felt in the field. Operations for the week ending Sept. 22 are reviewed by Mr. Baker without reference to the American force now in France. He adds: "The week just closed has been one of increased activity on the part of the allies on the western front and may be taken as a presage of what the enemy is to expect next spring."

There is little doubt now that a large deficiency of men will be shown when the first increment of the national army—687,000 men—has been mobilized.

Seventeen national guard divisions must be brought up to war strength and several special service forces organized out of this reservoir, so the number of drafted men remaining at the cantonments hardly will be sufficient to organize the 16 national army divisions at a full strength basis. Whether incomplete divisions will be formed or a call for more men issued has not been indicated.

Secretary Baker said that definite figures as to the number of national army men it would be necessary to transfer to the national guard were not available. A dual process of organization at the guard encampments serves to delay complete reports. Not only are these divisions being mobilized for the first time, but in the midst of that mobilization the whole fabric of the infantry army is being reorganized on the new French warfare plan.

The fighting strength of the new divisions is now fixed at 27,500 men. The 17 guard divisions on that basis would have a total strength of 427,500 men.

The guard probably brought into the federal service a total of not more than 300,000 men, possibly fewer. It will take, therefore, at least 127,000 national army men to fill up the guard divisions.

OHIO IS SHORT IN COAL SUPPLY

(By American Press)

Columbus, Sept. 27.—Nearly every town in Ohio is in need of coal, according to reports received by the state council of defense. Only in communities close to coal fields is there a sufficient supply on hand. Of 21 cities replying to the request of the council for information, only three have enough coal, Bellaire, Coshocton and Canton.

Despite the fact that the president has fixed the price of coal at the Ohio mines at \$2.25, it can not be bought at any price in many cities in the state, and where there is a scanty supply on hand it is selling from \$5 to \$7 a ton. This is for soft, domestic coal. The only way the situation can be relieved is by prompt action by the federal government. National Coal Administrator H. A. Garfield has told Attorney General McGehee that he hoped to be able to start giving attention to the Ohio coal situation this week.

Good housekeepers use Red Cross Ball Blue. Makes clothes clean sweet, like new. All grocers.

WEDNESDAY GAMES

(By American Press)

Boston, Sept. 27.—Cleveland closed its 1917 series here yesterday by defeating Boston. Combs' pitching and three double plays aided the visitors. Chapman stole second twice during the game, but on two other occasions was caught off the same base. Score:

KNEW U-BOAT CHANGE

(By American Press)

Washington, Sept. 27.—Further evidence that Count Von Bernstorff, former German ambassador to Washington, knew of his government's intention to inaugurate a campaign of unrestricted submarine warfare prior to his request for money with which to influence congress, is in possession of the state department. Secretary Lansing said that as early as Jan. 19 Count Von Bernstorff knew of the plan.

In the Probate Court of Fayette County Ohio.

The State of Ohio, Fayette County, ss. To whom it may concern:—

Notice is hereby given that accounts and vouchers have been filed in the office of said Court.

By Trustees of

1318 Henry Judy

1638 Edward Wilson

By Executors of

1940 William Vince

1899 Mary E. Sollars

By Guardians of

OHIO SUFFERS LOSE FIGHT

(By American Press)

Columbus, Sept. 27.—Ohio suffragists lost two court decisions in their fight to knock out the referendum on the Reynolds act. The supreme court on motion of the attorney general, dismissed the injunction suit appealed from the Franklin county common pleas court, seeking to enjoin the secretary of state from counting signatures from 65 counties. Judge Rata melli of common pleas court dissolved the temporary injunction against Fulton's counting petitions from 22 counties because they had been certified improperly by boards of election. He ruled that the old, insufficient certifications will stand as corrected and amended by subsequent certifications.

The supreme court dismissed the suit for want of jurisdiction, upholding the contention of Assistant Attorney General Dempsey that it was only part of a suit, while the other part was lagging behind in common pleas court.

The suffragists have before the supreme court one more suit, and in this they have their only chance to block the referendum. In this suit, seeking to mandamus Secretary of State Fulton to give suffragists a hearing, the plaintiffs filed an application for temporary injunction, restraining Fulton from taking any action until the mandamus is disposed of. The supreme court refused this application, but allowed an alternative writ to issue, asking Fulton to show why he should not grant the women a hearing.

Rotterdam, Netherlands, September 24.—Rotterdam's shipping traffic last year fell to the level of the year 1870 as regards the number of ships, and the level of 1892 in respect to tonnage, according to the annual report of the Rotterdam Chamber of Commerce. The shipping arrivals of the whole country numbered 5,114, with a net tonnage of 4,681,117, as compared with 6,351 ships measuring 1,621,478 in 1915.

Traffic with Spain, Russia, Roumania and many other European countries is entirely at a standstill, and that with Africa almost in a like condition. Nearly half Rotterdam's shipping traffic was carried on with Britain, Norway and Sweden. The other half was with the United States and Argentina, whence came the country's grain imports.

A large part of the Rhine fleet was employed in the transport of gravel from Germany and Holland over inland waterways to Belgium. This material is destined for German military and other uses, and its conveyance through Dutch waters has not been viewed with much favor by the Entente Powers.

KILLED CRUEL MATE FREED OF CHARGE

(By American Press)

Cincinnati, Sept. 27.—Mrs. Mary Gorsuch, who shot and killed her husband at her home Monday night, was exonerated in municipal court and dismissed by Judge Bell. Her story of suffering and abuse by her husband aroused pity among those in the courtroom. She said her husband taunted her when she grasped a revolver. As he walked toward her she fired.

Red Cross Ball Blue should be used in every home. Ask your grocer. Large package 5 cents.

NATIONAL ELEVENTH ANNUAL DAIRY SHOW
